Note to patients with insurance

We are happy to process any insurance claim as a service to you at no charge. We are proud that our fees reflect the time that the doctor spends with each patient as well as the overall quality of care and service that we provide in our practice. Our fees are not based upon any insurance schedules, and are often above insurance allowances. The benefits are too low. You may wish to complain to your company's benefits representative should your benefits be less than you expected.
